

THE SOFTWARE & COMMUNICATION HOUSE

Company Profile

About Us:

SAND is a privately owned Egyptian based software development corporation founded in 1999, our mission is to help clients improve productivity and significantly enhance performance through the intelligent use of technology.

We pride ourselves of having executed projects for an extensive worldwide clientele. Our relationship with clients is based on honesty, evident hard and good work and total commitment to our client's needs. We are proud of our reputation, offering a friendly and flexible approach, which ensures our long-term partnerships with our clients.

We aim at narrowing the gap between our clients and their goals. If we start by enhancing our clients' communication and information infrastructure, we surely pave the way for higher achievements.

We have developed various platforms and products to accommodate a multitude of diverse business needs ranging from software outsourcing, enterprise applications, middleware development, web portals development, call center solutions, SMS/ MMS solutions, Cisco unified communications manager services, carrier grade solutions and more

We have a qualified and experienced team of offshore professionals with varied domain knowledge and expertise that adds value and provide a competitive distinct advantage in both tailored and ready-made software development services.

Vision:

To offer the highest level of convenience, accessibility and utility in both products and services market so that customers will elect to use our services because they are fast, reliable and affordable.
